About Combi

Combi was established in Japan in 1957 and since then has been focused on producing innovative, high quality and reliable parenting products that serve to make parenting that little bit easier.

Today Combi is one of the world's largest parenting product specialists and is listed on the Tokyo Stock Exchange. This means Combi is a brand you can trust to deliver on your expectations as a parent as well as the needs of your child.

Ask for a demonstration to learn why Combi is the first choice for smart parents.

Combi Strollers

The design of Combi strollers is regularly refined and rigorously tested to ensure they provide many years of safe and reliable operation and comfort for your baby as well as offering you maximum convenience.

Like most other things we buy, the quality of the materials and design process determines a product's durability and reliability. And while Combi strollers are very lightweight and look and feel flimsy, they are not. Combi strollers are beautifully made using high quality materials and advanced engineering principles to ensure they will deliver years of reliable operation.

One of the greatest features of Combi strollers is they are ultra lightweight & compact. Another great and unique feature is Combi's quick and easy open and fold which makes them ideal for busy parents.

Combi strollers are unique because they have been designed to deliver all the features and comfort of a much larger pram without the burden of size, weight and hassle. And many models also offer a convenient baby-facing mode (Reversible handle). They will comfortably fit the boot of most small cars meaning you don't need to buy a large car or 4WD just because you've had a baby.

Unfortunately most parents make a few incorrect & costly purchasing decisions when choosing their pram or stroller. Ask experienced parents you know for their advice and they will confirm the best choice for everyday usage is something lightweight, compact and easy to use. And this is why Combi is the first choice for SMART parents.

Other SMART Combi products

Magical Compact carrier

The Magical Compact carrier is the ultimate baby carrier. It is suitable from newborn (3.4 kgs) to 14.9 kgs and has an incredible four carrying positions; cradling, face-in, face-out and back carrying. The unique cradling position provides optimum head and back support and maximum comfort for your newborn baby. It's very easy to use.

Roanju parenting station

The Roanju parenting station is the most dynamic parenting aid in Australia. It transitions from a daybed, to a rocker, hi-low feeding chair (highchair) and change table. Suitable from Newborn to 18kgs.

Baby Label

Combi also has a full range of feeding accessories that are compact & convenient and as you would expect from Combi, made from the highest quality safe and durable materials. (BPA Free, dishwasher safe)
